

Product Info Sheet

ABOUT IXL

IXL is a personalised learning platform that is proven to improve learning outcomes for all students.

Comprehensive Curriculum

IXL has spent more than 10 years building a comprehensive curriculum covering thousands of skills in maths and English. Each IXL skill is carefully scaffolded and adapts to learners as they grow, ensuring they're supported and challenged at the right moments.

Real-Time Diagnostic

IXL's comprehensive curriculum provides the foundation for a new kind of assessment. The IXL Real-Time Diagnostic assesses students at a deep level, providing reliable insights on their current understanding of key maths and English strands. With this portrait of student knowledge always at hand, teachers can make smarter decisions about how to reach every student where they are.

Personalised Guidance

Based on student work in the curriculum and the Real-Time Diagnostic, IXL creates a personalised action plan for each learner, seamlessly linking to the exact skills that will help them fill knowledge gaps and build on their current understanding. IXL's guidance provides a flexible pathway for growth, empowering teachers to remain in the driver's seat and make choices for their students when needed.

Actionable Analytics

IXL Analytics makes it simple for teachers to deliver data-driven instruction that supports every student at the right level. Easy-to-use and intuitive reports help teachers monitor classroom performance and growth, pinpoint trouble spots in real time, and group students with similar needs, so that they can use their limited class time more effectively.

IMPLEMENTATION MODELS

Schools around the world are using IXL's flexible platform to provide personalised support in a variety of settings:

- Whole-class instruction
- Blended learning and flipped classrooms
- Homework
- English language learner (ELL) support
- Computer lab
- One-to-one
- ...and more!

MOBILE: IXL FOR IPAD, IPHONE, ANDROID, AND KINDLE

IXL's software has been tailor-made for the mobile experience, combining all the functionality of our website and a host of unique app-only features. Whether you have a few tablets, a full-fledged 1:1 initiative, or just student mobile device access at home, IXL can make learning an on-the-go experience.

PROFESSIONAL LEARNING

IXL is proud to provide a broad range of professional development opportunities for educators. Our professional development packages are customised to meet your school's needs and include personalised consulting from IXL's instructional specialists. To learn more, please email pd@ixl.com.

PARENT INVOLVEMENT

IXL is committed to helping teachers and parents build a strong connection between home and school. With at-home access to IXL, parents can track their child's progress using intuitive reports from IXL Analytics. As students reinforce the skills they learn in school, parents have the tools they need to provide support and guidance at home.
